WHO WE ARE

INNO-CHIKE NIGERIA LIMITED
RC 134047 · Oil Field Service Contractor & Supplier

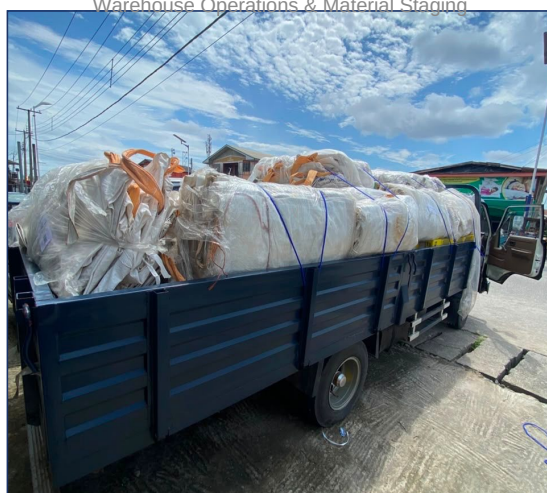

Established in 1989, **Inno Chike Nigeria Limited** is a trusted procurement, industrial supply, logistics, and fabrication company serving Nigeria's oil and gas industry. For over three decades, we have built a reputation for delivering quality products, dependable sourcing solutions, and timely project support to some of the industry's leading operators.

Our expertise spans the procurement and supply of mechanical, electrical, safety, and other industrial materials, supported by a well-established global supplier network and experienced procurement professionals. Through strategic partnerships and efficient logistics, we source and deliver products from reputable manufacturers around the world while maintaining the highest standards of quality, transparency, and reliability.

As a long-standing vendor to **Chevron Nigeria Limited**, we understand the importance of precision, compliance, and on-time delivery in supporting critical operations. Our commitment to professionalism, technical expertise, and lasting client relationships has enabled us to remain a dependable partner to the energy sector for more than 35 years.

OUR VISION

To be Nigeria's most trusted procurement, fabrication, and industrial supply company, recognised for our commitment to timely delivery and partnerships that exceed our clients' expectations.

OUR MISSION

To deliver reliable procurement, supply, logistics, and fabrication services through timely delivery and an unwavering commitment to quality, safety, and customer satisfaction.

CORE VALUES

◆ Integrity

We deliver on our commitments, every time.

◆ Punctuality

On-time delivery is non-negotiable in everything we do.

◆ Safety

Zero-compromise approach to health, safety & environment.

◆ Excellence

Uncompromising quality in every product and service.

◆ Partnership

Building lasting, trust-based relationships with clients.

◆ Accountability

We take full ownership of every project outcome.

◆ Innovation

Continuously improving our processes and supply solutions.

Rather than being a generalist supplier, we focus our expertise where it matters most to oil and gas operators. Five core service lines define what we do — and what our clients have depended on us for, for over 35 years.

Procurement & Sourcing

1

End-to-end procurement of oil & gas, mechanical, and technical materials — sourced to exact specification from certified global manufacturers and OEM suppliers.

Strategic & Technical Sourcing

Oil & Gas Procurement

OEM-Spec Materials

Industrial & Safety Supply

2

Bulk and specialist supply of mechanical, electrical, and safety materials for industrial and oil field operations — from valves and cabling to full PPE kits.

Mechanical & Electrical Equipment

Safety Equipment & PPE

Industrial Consumables

Fabrication Services

3

In-house fabrication of bespoke industrial structures and equipment, engineered and tested to client specifications and quality standards.

Cargo Baskets & Steel Frames

Custom Structural Fabrication

Quality-Tested Output

Logistics, Import & Export

4

A dedicated delivery fleet paired with customs clearing and forwarding capability, moving materials safely from source to site — locally and internationally.

Fleet-Backed Delivery

Import / Export & Clearing

Site Mobilization

Inventory & Supply Chain Support

5

Warehousing, stock management, and after-supply documentation that keep client projects running without material bottlenecks.

Warehousing & Stock Management

Just-In-Time Supply

Post-Delivery Documentation

Pipe Flanges

Bolts & Fasteners

PRODUCTS SUPPLIED

INNO-CHIKE NIGERIA LIMITED
RC 134047 · Oil Field Service Contractor & Supplier

Inno Chike Nigeria Limited sources and delivers a broad range of industrial materials to clients across the oil and gas value chain. Our global supplier network ensures access to quality-certified products that meet operator specifications and international standards.

Cargo Baskets

Cable Reels

Roll Materials

Fiber Drums

Safety Barriers & PPE

Galvanized Steel Pipes

Spiral Wound Gaskets

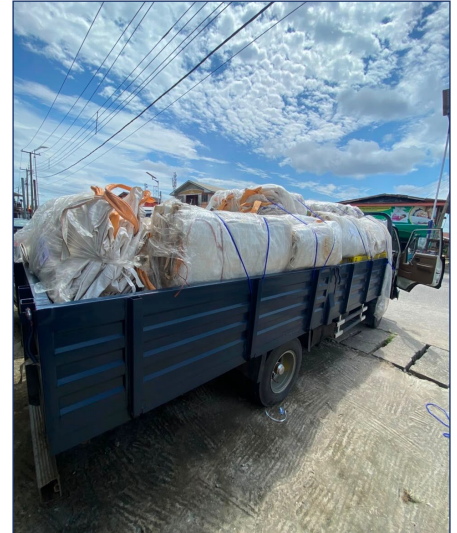

Coiled Materials

Fabricated Cargo Frames

At Inno Chike Nigeria Limited, logistics is not an afterthought — it is a core competency. We operate a dedicated delivery fleet and maintain strategic relationships with haulage partners to ensure materials reach their destination safely, on time, and in full.

Door-to-Site Delivery

From our staging area in Warri to any site location in the Niger Delta and beyond, our logistics team coordinates every movement with precision.

Secure Packaging & Handling

All materials are packaged, labelled, and secured to industry specifications. Fragile and specialist items receive additional protection in transit.

Multi-Modal Transport

We deploy flatbed trucks, closed vans, and flatbed trailers to match cargo type and volume — from small technical items to large fabricated structures.

Warri Depot Hub

Strategic location for Niger Delta operations

72-Hour Mobilisation

Rapid deployment to project sites

Full Documentation

Delivery notes, waybills, and quality records

Track & Confirm

Proactive client updates at every delivery stage

Your Single-Point Partner for Industrial Procurement, Fabrication & Logistics in Nigeria's Energy Sector.

01

35+ Years of Proven Track Record

Our operating history speaks for itself. Since 1989, we have consistently delivered quality products and reliable service to major operators including Chevron Nigeria Limited. Experience built through decades of work in Nigeria's demanding oil and gas sector cannot be replicated.

02

Global Sourcing, Local Delivery

We leverage a well-established network of international manufacturers and OEM suppliers to source products to exact specifications — then deliver them efficiently to any site in Nigeria. Our clients benefit from international quality standards without the complexity of managing imports themselves.

03

End-to-End Supply Capability

From procurement planning and vendor qualification through fabrication, packaging, customs clearance, and final delivery, we manage the entire supply chain. One point of contact. Full accountability. Reduced risk for our clients.

04

In-House Fabrication Strength

Our fabrication capability adds a critical dimension to our offering. We design, build, and test bespoke industrial structures and equipment — cargo baskets, racks, steel frames — to client specifications, with quality documentation and test certificates.

05

Reliability & Compliance

We operate with strict internal quality controls and maintain comprehensive documentation for every transaction — purchase orders, quality certificates, delivery notes, and waybills. Our processes are designed to meet the compliance requirements of major IOCs and indigenous operators.

LET'S WORK TOGETHER

We are ready to deliver quality products and reliable service for your next project.
